

# Nivelliersystem - DYNAMIC

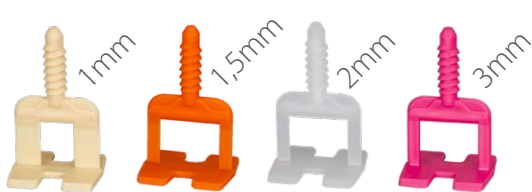

Perfectly level wall and floor tiles

SCAN ME

## One system - two possibilities

Tiles 1mm to 13mm high

13mm - 22mm high patio tiles

## Features

- **Practical:** Fast, secure, and level installation of wall and floor tiles
- **Flexible:** The system offers the advantages of both applications, wedges or knobs
- **Fast:** Knob with innovative closure allows for quick fastening and loosening
- **Versatile:** Leveling spacers for different tile thicknesses and joint widths
- **Sustainable:** Knobs and wedges are durable and can therefore be reused for a long time
- **Protection:** Spacer plates prevent damage to sensitive tiles
- **Precise:** An indispensable aid for planning and laying without overlapping, especially for large-format tiles
